Construction Industry

A&S Quality Builders Company is a general construction company serving San Francisco and the Bay Area. Our clients can count on the quality and professionalism of our team and the range of resources we offer, all tailored to meet the unique needs of each project.

We specialize in residential and commercial construction, as well as remodeling and expansion work.

Working with A&S Quality Builders

Our mission at A&S Quality Builders Company is to provide our customers with high-standard, quality construction services that add lasting value to every project. From estimation to post-construction, we are fully committed to each client and every detail.

Our solutions are tailored to fit any budget while bringing sophisticated ideas to life. We take pride in our high-quality craftsmanship, guided by strong ethical values and a dedication to complete customer satisfaction.

On-Site Consultation

We listen carefully to our clients' needs and ideas, combining their vision with our expertise in architecture and design.

Through thoughtful space planning, furniture layout, traffic flow analysis, storage solutions, lighting design, and media/communication planning, we create personalized plans that optimize space utilization and budget allocation.

Obtain Permission by City Code

Most areas require permits for major remodeling, additions, new buildings, swimming pools, or demolition projects.

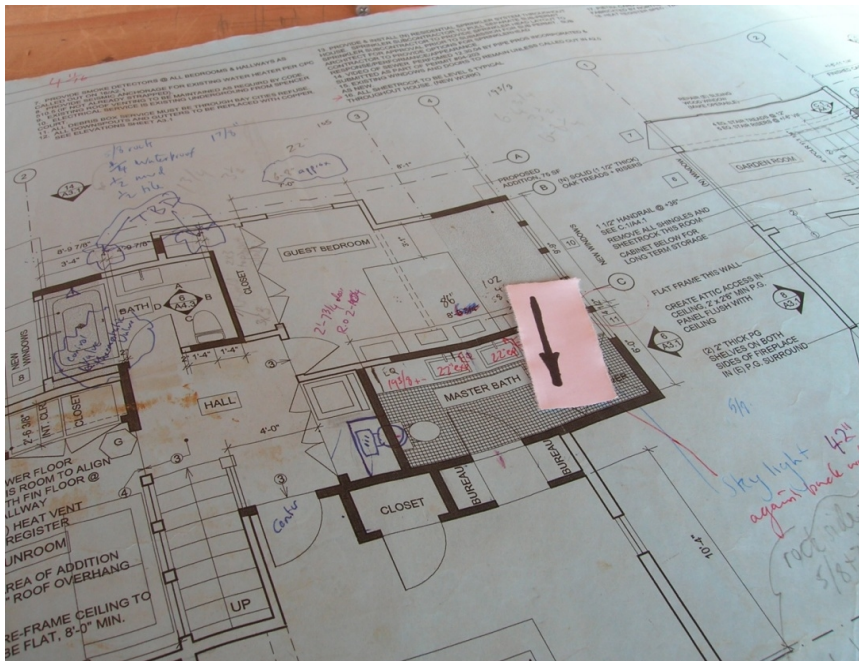

A building permit, issued by your city or county, grants permission to proceed with construction.

We can assist you in obtaining the necessary permits for your project or help you check with your local authorities to determine if a permit is required.

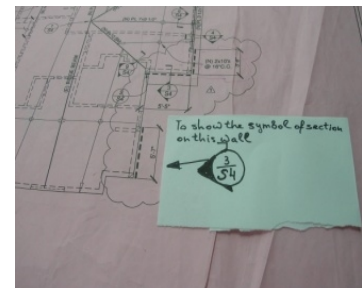

Blueprints

Reading and understanding construction blueprints is essential to every successful project.

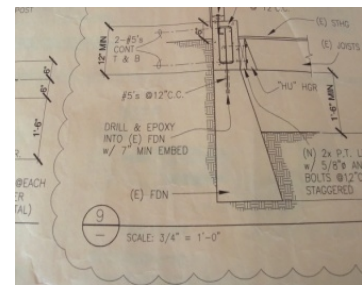

We collaborate with experienced architects and structural engineers who are committed to excellence and attention to detail—guiding your project from the first blueprint to the moment your new home is ready to move in.

Kitchen Remodeling

Whether you're moving into a new home or ready to replace your old kitchen, we're here to help with your upgrade.

New high-end appliances, sinks, faucets, and countertops will boost both function and style — whether you prefer a modern or classic look.

Updated cabinetry, windows, lighting, and layout design will personalize your space, making your kitchen warm, welcoming, and uniquely yours.

Bathroom Remodeling

Did you know that one of the best ways to get a quick return on your investment is by remodeling your bathroom?

With a wide range of materials and styles to choose from, we can help transform an outdated space into the bathroom of your dreams!

Plus, you'll enjoy lower utility bills and a fresh new look. Bathroom remodeling is the perfect time to get creative with design and decoration choices.

Room Addition

Home additions are a great way to add value to your property — the possibilities are limited only by your imagination. Whether you want to expand your home or simply add more living space, we're here to help.

Room additions can be just as complex as building a new home. Matching the new space to the existing structure — while you're still living there — takes skill and attention to detail. Everything should flow seamlessly: the foundation, finishes, windows, insulation, flooring, and more.

With our experience and commitment to quality, we can help you transform your home with a beautiful, perfectly integrated addition.

Concrete Works

Concrete work is one of the most challenging and important parts of any construction project. It must be done carefully to ensure quality, safety, and minimal disruption to the surrounding area.

Our team specializes in all types of concrete work — from new installations to repairs and rehabilitation. Restoring damaged or deteriorated concrete often involves precise saw cutting around the repair area to achieve a clean, professional finish.

Whether it's a new foundation, walkway, driveway, or repair project, we deliver durable and high-quality results built to last.

Full Remodeling

Whether you're dreaming of a complete Victorian-style makeover or just want to add a sleek, modern touch, we've got you covered!

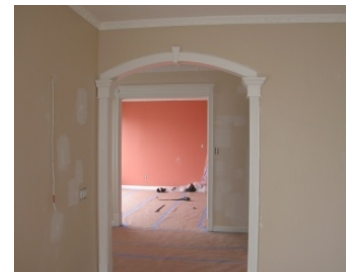

A full home remodel involves many stages of construction, and our professional team is experienced in managing every detail — from start to finish — with precision and care. We'll help you transform your house into the home you've always wanted.

Interior Painting

Interior trim is a key finishing touch that brings every project together. Our interior painting services offer a wide range of textures, styles, and techniques to match your vision. Whether you're looking for smooth, textured, or faux finishes, we provide plenty of options to help you create the perfect look for your home.

Any Structure

We can build just about anything—inside or outside your home! From stairways, retaining walls, and fences to temporary structures, stonework, and concrete forming — we do it all with quality and precision.

Decks

Dreaming of the perfect outdoor space? Whether it's a pool deck, spa deck, gazebo, pergola, arbor, trellis, or custom lighting, we can bring your vision to life!

We use only high-quality materials and provide exceptional service every step of the way.

Our process starts with a visit to your property, where we'll discuss your ideas, suggest design options, and show you how your finished project could look. Then, we'll provide a professional deck design and detailed estimate — so your dream deck becomes a reality.
